WHY MUSCLE?

You did the hard part. Now build on it.

You put in the work, and it shows. Now it's time to feel strong and have more tone where you want it most. That's why muscle matters. PureImpact™ VIP is designed to tone, firm, and strengthen targeted muscle groups.

CAN I KEEP WORKING OUT?

PureImpact™ VIP works alongside your normal workout routine so you can keep moving toward your fitness goals.

pureimpact™ VIP

The weight is off. Now go for strong.

An FDA-cleared treatment to tone, firm, and strengthen:

ABDOMEN | BUTTOCKS | THIGHS | ARMS

The next generation of muscle toning

- 70+ exercise patterns
- 6 body areas at once
- 30 minutes per treatment
- multidirectional stimulation

HOW DOES IT WORK?

Smart stimulation. Real movement.

Your provider will place six wireless PlyoPods on the muscle groups being treated, activating six body areas together. Unlike traditional muscle stimulation, PlyoPulse™ technology sends electrical stimulation in different directions, just like neighboring muscles do in real exercise.

HOW MANY SESSIONS ARE NEEDED?

Each session takes about 30 minutes. Patients typically start with a weekly series over 6 weeks. Your provider will shape a plan that's right for you and your goals.

WHAT DOES IT FEEL LIKE?

Most people describe a deep muscle contraction, similar to a challenging workout.

WHAT DOES THE RESEARCH SHOW?

The science behind your strength.

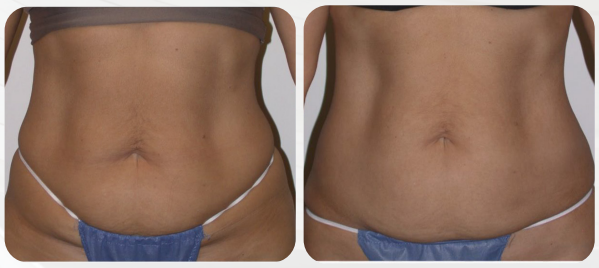

UP TO 73% Improvement from baseline in treated participants, on repetition and endurance tests by week 5

Study of 38 healthy adults: 19 treated, 19 untreated. Treated group received six weekly 30-minute sessions.

68% **felt stronger and firmer** Self-reported by treated participants in the clinical study

Movassaghi et al., Aesthetic Surgery Journal, 2026. Randomized controlled study of healthy adults. Average percentage change from baseline at week 5. Results vary.

CAN SOFWAVE HELP MY BODY TOO?

Lifted skin. Stronger muscle.

After weight loss, you may want skin that looks lifted and muscle that feels stronger.

sofwave™ | the skin

SUPERB™ ultrasound works at the skin's dermal layer, encouraging your skin to make more of its own collagen. FDA-cleared to improve the appearance of skin laxity on the upper arms and for the short-term improvement in the appearance of cellulite.

pureimpact™ VIP | the muscle

Uses PlyoPulse™ technology to work the muscle layer beneath your skin. Together, they complement each other to help you look lifted and feel strong.
